COURSE DESCRIPTION:

Alchemy Advancing Skills Day classes enhance the process of learning the concepts, skills and fulcrums taught in Alchemy of Touch and help you to connect with other ZB practitioners. Student questions shape the lessons, and the format includes presentations, demonstrations, touch feedback and session swaps. All of the students have taken Alchemy of Touch.

Topics typically addressed:

- Deeper understanding of alchemical principles and their modern-day applications
- The theory, purpose and therapeutic use of energy amplification in ZB
- How to use bone as an energy conduit
- How to amplify vibration, both locally and generally in the body
- How to contain and establish boundaries of energy
- Framing a session and working with a client's personal history
- Monitoring shifts of consciousness and expanded states
- How to recognize signs of amplified fields in your clients
