COURSE DESCRIPTION:

Advance your skills with the organs: Revisit and Renew! Advancing Skills Day classes enhance the process of learning how Zero Balancing approaches the viscera, while getting feedback from other advanced ZB practitioners. You will have the opportunity to delve deeper into anatomy and physiology and learn how parts of the skeleton can be affected by the viscera. Student questions shape the lessons and the format. This class includes presentations, demonstrations, touch feedback and supervised hands-on table work.

Topics typically addressed:

- **When to focus on organ ligament attachments and when to focus on the organ itself**
- **Revisiting the 10,000 Things Fulcrum touch skills and uses,, along with other fulcrums that address the roots of the organs**
- **The Inspiration Fulcrum and its uses**
- **Personal attention to your questions**
- **How other parts of the body can be affected by the organs**

What Participants say about Addressing the Viscera Advancing Skills Day:

“Wonderful experience. Ready for another Advancing Skills Day!” Cheryl Hebert, LMT

“I can’t get enough of the visceral work.” Kelly Kaeding, LAc

“I have better knowledge of the organ and duct locations and hand placements.” Suzan Sutton, LMT
